

RecruitSafe Cybersecurity Audit Assessment

REPORT ID: 6a4a8d8643e68a6aa1aa8ab7 | VERIFIED PORTAL V2.1 | GENERATED: July 05, 2026 at 16:59 UTC

Verdict:	Needs Verification	Confidence Score:	100/100
Trust Score:	75/100	Input Quality Score:	100/100

Opportunity Legitimacy Trust Meter:

Executive Summary

The job posting for a Junior Software Developer at Nexora Technologies Pvt. Ltd. appears to be professionally laid out with clear responsibilities and benefits, indicating a potentially legitimate opportunity. However, the absence of SSL encryption and a broken secure protocol are significant negative findings that raise concerns about the company's commitment to security and data protection. The fact that the company's careers portal does not enforce encrypted HTTPS communication is a red flag, as legitimate employers typically prioritize secure transmission of credentials. There are no overt payment or identity requests in the job posting, but the lack of information about the company's physical presence and reputation is an unknown finding. Based on these factors, it is recommended that job seekers exercise caution and verify the company's legitimacy before proceeding. The confidence in this assessment is moderate, as the technical evidence suggests security vulnerabilities, but the job posting itself appears well-structured and professional.

AI-Rule Agreement Details

Rule Engine (Needs Verification) and AI Model (Needs Verification) are in high alignment (Agreement: 100%).

Verification Status Footprint Panel

Company Website:	Partially Verified	Corporate Email:	Not Found
WHOIS Registration:	Verified	DNS Resolution:	Verified
SSL Connection:	Invalid	LinkedIn Link:	Not Found
Privacy Policy:	Not Found	Terms & Conditions:	Not Found
Contact Page:	Not Found	Careers Page:	Not Found

Verified Positive Findings

Audit Signal	Rule ID	Source	Audit Details
Structured Professional Hiring Funnel	RULE_588	Rule Engine	The job description clearly outlines a structured, multi-phase hiring funnel (Application, Assessment, Interview, Offer Letter), which is characteristic of professional corporate recruitments.

Risk Indicators & Technical Anomalies

Risk Factor	Rule ID / Source	Impact	Anomalies & matched text
Missing SSL Encryption	RULE_195 Rule Engine	-15 pts	The site does not enforce encrypted HTTPS communication. Legitimate employers transmit credentials securely. <i>Matched: 'SSL Missing/Invalid'</i>
Broken Secure Protocol (SSL Fail)	CON_004 Website Analyzer	-15 pts	The URL specifies a secure protocol (HTTPS) but the security certificate handshake failed, indicating a self-signed, expired, or spoofed certificate. <i>Matched: 'https://careers.nexora-tech.in'</i>

Actionable Security Recommendations

- Avoid submitting credentials or personal documents to this website as it lacks secure SSL/HTTPS encryption.
- Verify the recruiter's official corporate profile on LinkedIn to ensure validity.
- Cross-check company openings directly on their official careers portal.
